

DAILY WHIG AND COURIER.
THURSDAY, FEBRUARY 20, 1844.
FOR PRESIDENT,
HENRY CLAY,
OF KENTUCKY.
FOR VICE PRESIDENT,
GEORGE EVANS,
OF MAINE.
SUBJECT TO THE DECISION OF THE BALTIMORE
WHIG CONVENTION.
SEE FIRST PAGE.

A visit to a Logging Camp.
We recently joined a little neighborhood party for a visit to a logging camp in the town of Edgington. The day was bright and pleasant and the pleasure of the visit for surpassing that of partaking of the luxuries of any of the hotels in our vicinity. The drive through the thick woods in the winding logging road with its multitude of cradle knows was quite amusing, and on arriving at the camp the hospitality of our friend, the owner, Mr. Luke S. Mills, was unbounded. As the mode of living in the woods of Maine, in the winter, may not be known to all our readers, we will give a brief description. The camp is built of logs, about thirty feet long and twenty feet wide with an opening in the centre of the roof, built up chimney like, about six feet long and four feet wide to allow the passage of smoke, and admit light.

The entrance to the camp is through a door, in the end, about four feet square. The fire is built upon the floor in the centre of the camp—two logs about four feet long are placed cross-ways, and about 8 feet apart, upon these are rolled two large hard wood logs about ten feet long, and two feet apart, and this place is filled with huge brans, and small wood, while underneath there is glowing bushels of live coals. This fire is kept up night and day. At the end of the camp opposite the door is the table with a long bench upon each side. Each man has a tin plate and pint dipper with the necessary implements for table use. One side of the camp is appropriated to the sleeping department, between which and the fire is a long permanent seat known from time immemorial as the 'deacon seat.' In this space, say seven feet wide, and the length of the camp, is placed a bed of hemlock boughs, blankets, buffalo skins, &c.—Here the whole company sleep with their feet to the fire. On the opposite side of the camp is stowed the beef, pork, molasses, meal, beans and flour barrels, and the necessary utensils for cooking. There is a passage way all around the fire, and the cellar is a hole dug under the table.

The presiding genius of this establishment is the cook, who is always known and addressed by the title of 'Captain.' He prides himself upon the excellence of his baked beans, his 'light' bread, and strong tea; and well he may, for in these matters he excels. The beans are baked either by burying the pot containing them in a large hole dug in the camp, and filled with hot ashes and coals, or suspended over night over the great fire. The tea is thoroughly boiled and sweetened with molasses. The warm cases are mixed with abundance of Saleratus, and cooked in tin bak-ers before the fire.

The 'captain' at the camp we visited was a sleek looking man, his beard closely shaven, and his locks and whiskers were in the neatest condition. The women of our party were well pleased with his cooking, and the whole party enjoyed an excellent dinner which was served up in a few minutes and without unnecessary ceremony.

This is the winter habitation of a dozen men, who from early dawn to night fall pursue their labor in felling trees, and preparing timber for the market. Disease rarely attacks them, and vigorous exercise, pure air and simple food give them strength and health.

After the labors of the day are over and the evening meal dispatched, the pipe is resorted to, and the party reclining upon their couch spend the evening in reading, conversation, jokes and games until one after another drops off in sleep.

A demented Frenchman is now in Philadelphia laying up all the cocoa nuts he can find, under the laughable impression that they are elephant eggs. He says that cocoa nuts are elephant eggs, and that he has with him contracts to deliver young elephants in England and France by the first of Jan, 1845. He proposes to send all elephant eggs to Florida to hatch, and then charter a ship to take the young elephants to Europe.

We saw yesterday, says the Newark Post, an article of dress worn at the coronation of George the Third. It was a satin petticoat wrought in needlework of the richest and most expensive character. The figures on it are mostly flowers, butterflies, &c. We learn that it was worn by the Countess of Glencarn, the sister of the great patron and friend of Robert Burros. This interesting relic is in the possession of Jas. Smith, Esq., of Hudson County, near this city.

The late arrival from Canton announces the death at Macao of Rev Samuel Dyer, of London, missionary at Singapore—aged 39—Mr Dyer was one of the most accurate Chinese scholars living.

The Supreme Court of Rhode Island will hold their next regular term at Newport, on the 1st Monday in March at which time it is presumed that the indictment against Dorr for the alleged crime of treason against the State, will be called for trial.

The Hon Henry Clay will be in Raleigh, N. C. on Friday, the 12th of April.

There are some philosophers and abstract theorists, who never reason from facts up to theory, but having in the closet framed a theory they are deaf and blind to all facts which militate with the darling theory, no matter how clear or how indisputable they may be. Thus, the free trade advocates of foreign labor, like our neighbor of the "Democrat," advance the proposition that a duty laid upon an article necessarily and inevitably enhances the price of the article in our market. This is the closet theory, and they bring it forth to the public as a fixed principle of political economy, and insist upon it with unwavering pertinacity, although untrue and baseless. They stuff free trade cotton in their ears, and put English blinders over their eyes, and then say "they can't see or hear." To your true free-trader the price current is an edomination and "a federal lie."

Show to him that almost every, if not every article protected by the tariff has fallen in price since it came into operation, and he will answer it by reading his proposition over again. To him a fact is nothing but an impertinent intruder and disorganizer, and he will go on, "extracting sun beams from cucumbers" with unhesitating gravity. He has not even the judgment of Sir Joseph Banks according to Peter Pinder, who framed in his closet the theory that fleas and lobsters were the same species. But unlike our anti-protectionists, Sir Joseph was willing to test by facts, the truth of his theory, and after having boiled the fleas for hours with true free trade perseverance in error, when he could not find the least approximation to red upon their backs, he had the honesty to give up his point, altho' he had not the grace to do it without an oath of vexation,

"Fleas are not lobsters—"
But to a free trader fleas are lobsters, to the end of the chapter boil as they may!

Late from Texas.
The N. O. Picayune contains Houston dates to the 15th. There were great rejoicings at Houston in consequence of the report that the Senate of the United States had almost unanimously ratified a treaty for the annexation of Texas to the United States.

The cry for annexation is general from one end of the country to the other—the editors are thinking of nothing else, talking of nothing else. All the villages along the Rio Grande have been recently illuminated, on account, as is stated, of an armistice for ten years having been agreed upon by the Commissioners of the two countries. Col. Hays has been authorized by Congress to recruit a band for the purpose of protecting the frontier, and is now busy collecting men and ammunition.

The venerable and much beloved John Quincy Adams continues to speak in the House of Representatives at Washington, but we regret to notice that the Reporters frequently remark they were unable to hear him. His strength is evidently failing him.

A Washington letter writer to the New York Tribune states that there is a storm brewing against the Tariff. The Calhoun men and the Van Burenites are secretly projecting another compromise. It is a bold game, and must be met.

The Richmond Whig says that the Hon. B. F. Porter of Alabama, a distinguished "Democrat" of the Calhoun wing, has publicly announced his determination, since Mr Calhoun's withdrawal, to support Henry Clay.

The barn on Job F. Randolph's farm, near Barnegat, Monmouth county, N. J., was struck by lightning during the thunder shower on Thursday evening last and consumed, with all its contents except two cows.

As soon as the debate upon the 21st rule is closed, the question of the annexation of Texas to the United States, will probably arise—so prognostications from Washington assure us.

Erysipelas prevails to an alarming extent in and about Troy, N. Y. It is stated that there were forty cases within half a mile, and not well ones enough to attend on the sick.

Officer Baker shot a man by the name of Lightbody with a pistol in New York, on Thursday evening last, while in the discharge of his duty.

"O. K."
The Taunton Whig says—The true definition of these cabalistic initials seems to be OLL for KLAY! The people interpret it so—and so mote it be.

Mass meetings of the whigs are being held in many of the States, and every where there is manifested the most undoubted certainty of the election of Henry Clay.

The Globe, ever foremost in its attempts to throw impediments in the way of the Government and anxious to embarrass the diplomacy, heralds the arrival of Mr Packenham by a tissue of abuse and prejudgment of his motives.

The Hardware Dealers of Philadelphia unanimously memorialized Congress against any reduction of the present Tariff, either on hardware or anything else. What have the British agents in New York to say to that?

Bugbee has received the New Mirror for March 2d. It is good, as usual.

Sentence of Lieut. Tansill
This officer, who was found guilty of 'causing to be published in a newspaper in Florida, a scandalous letter, containing reproachful and provoking language concerning Lieutenant McLaughlin,' has been sentenced to be suspended from the service, for and during the term of three years upon half-pay; and he is reprimanded in general orders, by the Secretary of the Navy. The sentence has been approved.

Connection Whig Convention.
The Whigs of Connecticut held a magnificent Convention at Hartford on Thursday the 22d inst. The patriotic enthusiasm of 1840 was fully aroused. The delegates of the numerous Clay Clubs in the State appeared in long processions of carriages with their banners flying.—Protection to American Industry was the prominent idea in the various mottoes displayed.

The Convention was organized by the choice of the following officers:—
President.
CHARLES W. ROCKWELL, of Norwich.

Vice Presidents.
Hartford County—I. W. Stuart, Benjamin Ray.
New Haven County—Charles Atwater, Jared H. Canfield.
New London County—B. W. Tompkins, John J. Hyde.
Fairfield County—Thomas T. Robinson, D. D. Wildman.
Litchfield County—A. H. Hoadly, B. B. Rockwell.
Windham County—Henry G. Taintor W. S. Scarborough.
Tolland County—Frederick White, Reuben P. Sage.
Middlesex County—S. N. Shaddick, W. H. Ruel.

Secretaries.
Windham County—Jno. Tracy.
New Haven County—Jno. S. Rice.
Litchfield County—Wm. S. Hotchkiss.
Fairfield County—Wm. T. Minor.

From the resolves passed at this convention we select the following:—
Resolved, That we regard as first in importance to the welfare of our State and Nation, a firm adherence to the protective system, as embodied in the present tariff—a measure of Relief which was carried by the ceaseless and untiring exertions of the Whigs in the last Congress, against every effort on the part of Protectionists to ensure its defeat, and in spite of the most discouraging opposition on the part of the Executive branch of the Government.

Resolved, That we pledge ourselves to support and maintain the present Tariff, against the assaults of its enemies (open or disguised), believing that by its benign influence, it has already restored confidence and prosperity to a suffering country—harmonized Labor and Capital, and given profitable employment to both—encouraged agriculture by increasing the demand for its staple productions, and diffused the richest blessings far and wide throughout the nation.

Resolved, That we rejoice in the fact that this great measure of Whig policy, has far exceeded the sanguine expectations of its friends, as well as disappointed the malignant predictions of its enemies; inasmuch, as it has not only furnished adequate protection, and constant, well paid employment to American industry, but is also pouring into the national treasury, a full and abundant Revenue, amply sufficient to supply the wants of an administration, conducted, as the next will be, with proper economy.

Resolved, That were this great measure in which the principle of Protection, notwithstanding the opposition of Martin Van Buren and his adherents, has so gloriously triumphed, the only benefit to the country occasioned by the success of the Whig party at the last presidential election, the Whigs of Connecticut would feel fully rewarded by this alone, for all their labors in that memorable and glorious struggle—the event of which was only a foretaste of the far more brilliant and enduring triumph, which awaits us in the coming contest.

Resolved, That a recruited and increasing revenue—reviving trade and commerce—and a general feeling of confidence, arising from the belief that Whig measures will be sustained, unequivocally attest the correctness of that comprehensive and beneficial policy of the Whig party, which is becoming daily better appreciated by the strong good sense of the people.

Resolved, That we hold it to be a constitutional duty of the General Government, to provide a sound National currency, of equal value in every part of the Union.

Resolved, That the interest of this State, in that vast national property—the public lands, has never been alienated, and that so long as there is hope that justice may yet be done to the old thirteen States, we shall never cease to demand our proportion of that almost inexhaustible fund—which, could it be equitably distributed, would be a source of immense wealth to this State—would educate our children, perfect our internal improvements, pay all the expenses of government, and relieve us forever from the burdens of taxation.

Resolved, That in the course pursued by our political opponents, with regard to the public lands, we see a full and fair illustration of the manner in which they are always ready to sacrifice the interests of the State to the requirements of party.

Resolved, That we tender to those Whig members of the last Congress, who voted for the present tariff, at the risk of incurring the displeasure of their immediate constituents, our most sincere and heartfelt thanks for thus magnanimously pursuing a course of policy, which though it may personally injure themselves, has restored the prosperity of the Nation.

Resolved, That his Excellency Martin Van Buren, late President of the United States, has our grateful thanks, for having broken over his usual rule of policy and committed himself on the subject of the present tariff, and that we entertain of him the same opinion which he expresses of that great measure, and shall continue our opposition to him and his measures, "both in principle and detail."

Resolved, That we feel renewed and increasing confidence in that lofty Patriot and Statesman, whom we are proud to acknowledge as our champion and leader—HENRY CLAY of Kentucky;—we support him as the father of the American System—as the unwavering friend of American industry;—as the great pacificator who has so often calmed the rising waves of civil discord, when they threatened to overwhelm the ship of State—as the untiring and eloquent advocate of the rights of humanity, at home and abroad—as a magnanimous, true hearted, and lofty Statesman, who has pursued the path of duty, even in the midst of obloquy and reproach, and patiently awaited the approval which time must at length bring—as a noble example, of that "noblest work of God an honest man," and finally as a glorious living illustration of that principle of our republican institutions—which enables the humblest child of penury and obscurity to rise by the force of merit, to the loftiest honors this world can bestow.

The Convention was eloquently addressed by Gov Ellsworth, and other popular men of Connecticut Gov. Morehead of Kentucky, was enthusiastically received, and addressed the Convention with great force of reasoning.

Several letters in answer to invitations to be present were read, and various addresses were made, and one purpose seemed to animate all

hearts, that of establishing whig measures by the election of Henry Clay as President, and a whig Congress.

This gathering of the noble whigs of Connecticut, was the largest political meeting ever held in New England, except that at Bunker Hill in 1840. The whigs of Connecticut are prepared to go into their State election this spring with a united effort and are destined to be victorious.

CONGRESS.
Correspondence of the Journal of Commerce.
WASHINGTON, Saturday, Feb. 24.

The Senate did not sit to-day.
In the House the subject of the Rules was renewed—Mr Dromgoole having the floor.

Mr Dromgoole made no remarks on the question, but offered some amendments to the Rules and a modification of the 21st Rule, and moved the postponement of the subject till Tuesday next.

Mr Adams said the Committee had deliberated much upon this code of Rules, and they ought not to be thrust aside without consideration and a direct vote. He wanted a direct vote on the infamous gag rule. The gentleman had substituted something for the gag—he did not know what—perhaps something worse—and we were to swallow the whole in a lump.

Mr Steenrod moved to suspend the rules until some disposition was made of the subject, which was agreed to.

A call of the House was ordered, and 190 members appeared.

The motion to lay the subject on the table was lost—62 to 112.

The House decided not to call the previous question, 69 to 90.

The question recurred on Mr. Dromgoole's motion to postpone, which was rejected, 102 to 88.

Mr. Dromgoole's proposed amendments were passed.

He proposes to modify the 21st Rule verbally, not substantially. As to the admission of reporters, it provides, in addition to the former rule, that they may be deprived of the privilege of a seat in the House, on a vote of a majority of the House. Under the former rule, they were to be excluded only by direction of the Speaker.

Mr. Adams protested against the substitute of the minority reports of the committee on Rules for the report of the minority.

Finally, the House, without settling anything, adjourned.

A caucus of the democratic members is to be held on Monday, for the purpose of agreeing on some mode of settling this perplexing question.

ASSOCIATION NOTICE.

A meeting of the Penobscot Fourier Club, will be held at the office of DR. DEANE, on Saturday March 2, at 2 o'clock P. M. All are invited to attend. Per order, feb. 27. J. W. WILLARD, Sec'y.

MARRIED.

In this city, 13th, by Rev Mr. Hobart, Col. J. B. Merri-
ck of Burham, to Miss Julia H. Cowan.
In Hampden, 19th, by Rev Mr. Bradbury, of H. J. Benjamin F. Newman, to Miss Sybil C. Pishon, both of this city.
In Albion, 18th, Mr. William Hasey to Miss Mary A. Cammit.
In Orono, 23d, Mr. John Hitchborn, Esq. to Miss Adeline Godfrey; Mr. Hiram Emery, Esq. to Miss Harriet G. Godfrey.
In Augusta, 13th, Mr. Isaac W. Hilton, to Miss Lucinda S. Reed.

DIED.

In Garland, 23d, Charles, only son of James and Lu-
ra M. Greeley, aged six years. The subject of this no-
tice, was a subject of suffering, having for nearly three
years, been afflicted with the hip disease, during the
whole time of his sickness, which was severe, he man-
ifested an unusual degree of patience, and resignation,
which would hardly have been expected of one of more
mature years. Thus have these parents been called to
part with a child of an uncommon pleasant and agree-
able temper and disposition, and one on which they
fondly doted as a blessing to them. But he has gone,
—gone to that rest, where the wicked cease from trou-
bling and the weary at rest, and where, that the tears
of sorrow and affliction shall be wiped from off all
faces.

In New York, Julia A. only daughter of Mr. Eliza T.
Aldrich, formerly of this city, aged 14 yrs 9 mos.
In Glenburn, 17th, Mrs. Hannah Cowan, in the 80th
year of age.

EXAMINATION OF THE PUBLIC
SCHOOLS.

THE Superintending School Committee will ex-
amine the Schools in the following order, to-
wit:

On TUESDAY morning, Feb. 27, Miss Godfre-
Miss Haskins, Miss Nelson and Miss Wilson.
Afternoon, Miss Quimby, Miss L. A. Chandler,
Miss Lowder and Miss Fisher.

On WEDNESDAY morning, Feb. 28, Miss Mer-
rill, Miss S. H. Chandler, Miss Bradley and Miss
Brown.

Afternoon, Miss Stewart, Miss Thayer and Miss
Valentine.

On THURSDAY morning, Feb. 29, Mr. Bow-
and afternoon Mr. Souther.

On FRIDAY morning, March 1, Mr. Worcester
and afternoon Mr. Littlefield.

On SATURDAY, March 2, Mr. Prince.
Parents and others interested in the Schools are
invited to attend.
feb. 23.

Patent Ground Saws

A. RICHARDSON,
Saw Manufacturer,
Exchange Street, Bangor.

WOULD call the attention of purchasers to the
improvements lately perfected in the manufac-
ture of these articles. Having on hand an extensive
and extensive stock, mostly consisting of
Patent Ground Saws!

The advantages these saws have over all others made
by the old process are only fully appreciated by
those who have used them, they being ground per-
fectly true and free from thick or thin places, and
saw with much less sett, cut smoother and a three
fold more than the old process, the Shingle and Mill Saws have
improved tooth which will save much labor in pro-
cessing them, for work, saws of every description
kept on hand, or it will be made to order. A
Saw, WARRANTED GOOD.

SAWS REPAIRED,
of every description and warranted to run as well
as when first new or the money returned.

SAW FILES.
A large and excellent assortment kept constantly
on hand of the Stumps of several Celebrated Man-
ufacturers in England.
Feb. 26, 1844. d&wtf

First class Cars to Oldtown 38 cts
Forward " " " 30 " which is 25 per cent. less than former rates.
E. HARRIS, Superintendent.
Oct. 21st 1843.

DR. TAYLOR'S BALSAM OF LIVERWORT.
PRICE REDUCED.

D. R. TAYLOR'S Balsam of Liverwort, from 375 Bowery, New York—for the cure of Coughs, Colds, Catarrhs, Asthma, Soreness of the Chest, Pain in the side and Breast, raising of Blood, Liver complaint, Bronchitis, and all those affections of Throat and Lungs which are a source of so much suffering and unrelieved, so often terminate in Consumption—this remedy is highly and justly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. Physicians, aware of its medicinal properties, and witnessing its effects even in extreme and in some instances apparently almost hopeless cases, often prescribe it in their practice, both as a palliative and a remedy, and with the Medical Faculty generally it has met with great approbation.

Consumption.—The following remarks were taken from the last number of the Medical Magazine: "The surprising effect produced by the genuine Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, in consumptive cases, cannot fail exciting a deep and thrilling interest throughout the world. We have so long considered this disease (consumption) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to health. Yet it is a fact of daily occurrence."

Certificates from the highest and most respectable sources, or persons who have been either greatly relieved by it, or entirely recovered from affections of the Lungs and Liver, could be furnished in abundance, but we insert only the following:

Liver Complaint and General Debility. I was given up by two physicians, and told to prepare for death. I was so weak I could not raise my hand to my head. I was in this low state, when a friend sent me a bottle of Dr. Taylor's Balsam of Liverwort, from 375 Bowery, and before I had used up the bottle, I was able to sit up in bed. By the further use I have completely regained my health.
GEO. WELLS, 23 John-st.

For a common cold and cough, this is one of the very best remedies ever discovered.
N. B. There is a spurious and counterfeit article afloat; therefore be careful to get the genuine, which is from 375 Bowery, N. Y., and is for sale by G. W. LADD, Agent, Bangor.

LORRAINE'S PILLS.
OR VEGETABLE UNIVERSAL MEDICINE CURATIVE OF THE

French College of Health, in Paris.
THE following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Universal Pills.

SIR—I have been for many years a sufferer from the ravages of Scrophula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general utility of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.
J. E. NEWHALL.
Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy of notice.

SIR—It took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on, which had great charms, and I enjoyed one of the most comfortable and refreshing nights that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.
Yours truly, J. B. LIGHT.
Nov. 20th, 1841.

[From Boston Daily Mail.]
Somebody wisely says, that a cap loaded with jewels and flowers will not cure the headache, nor old chains prevent the consumption. Lorraine's Vegetable Pills have done both.

SIR—I have been effectually cured of a severe headache by the use of Lorraine's Pills.
SARAH NOYES.

SIR—My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.
Rev. J. KNIGHT.
New York City, Nov. 1, 1841.

Family Medicine.

SIR—I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 25 to \$100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorraine's Pills. JAMES NEAL.
Hartford, Conn. July 8.

Lame Back.
Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 15 hours of lame back and ind. of three weeks standing.

81 Headache.
Mrs. Bird of Providence says, that Lorraine's Pills have proved a real blessing to her. It has surpassed any thing she has been brought to the public notice. I have been cured of a sick headache, that had afflicted me for years by the use of Lorraine's Pills.

THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unwholesome accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood. The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, scour, and invigorate the human system.

NEW PRINCIPLES OF PURGATION.
CORNARO'S
Purifying and Preserving PILLS.

THE American public has for a long time been the victim of a false and dangerous system of medicine founded on the practice of LONG CONTINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most widespread and alarming character. They have reached through every vein and artery of our nation. In every city, and village, and hamlet—in every State and Territory of our vast Republic, will be found those who have suffered, or who are still suffering from the injurious effects of this old system, of whose practical utility the disease, decay, and utter prostration of those who test it furnish the most convincing proofs!

COMMON DRASTIC PURGATION.
Scours out the system by the most improper and violent means, and then leaves it weak, low, feeble, debilitated, to regain its strength as best it may. Sometimes the consequences of this old Purgative practice are worse than mere Debility. Inflammation of the Bowels, Slow Fever, Bloody Piles, and other horrible disorders are produced, simply from the want of some enlivening and preserving power in the medicine employed. Sometimes the digestive organs are deeply and permanently injured by this coarse and unphilosophical practice, leaving the patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life-giving Medicine, called CORNARO'S PURIFYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz:

NO PURGATION WITHOUT IMMEDIATE RESTORATION.

The use of this admirable Purgative remedy strikes a death blow to that abominable system, which by continually evacuating the bowels without any conservative or saving power, so dreadfully and fearfully prostrates and injures the unhappy patient. These Purifying and Preserving Pills are believed to constitute the perfection of medicine, being a UNIVERSAL VEGETABLE PURGATIVE, containing two great remedies combined, viz: One remedy to PURIFY FROM CORRUPTION, and another to PRESERVE FROM INJURY AND DECAY.

And for the purpose of attaining the highest degree of purity in the preparation of these Pills, Dr. Brudlee has, at a vast expenditure of time and money, invented and patented at Washington, a chemical and philosophical apparatus for distilling and refining vegetable extracts, called

THE SEVEN-FOLD FURNACE.
A powerful and novel machine—having Seven Fires and Seven Alembics, with distilling, condensing, and evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract heretofore used in compounding medicine. The Balsamic and Preserving power of these Pills is also, by this invention, highly purified and refined, and so mingled with the operative medicine, that it repairs all the injuries created by Purgation as soon as they are caused, and strongly fortifies the system against future corruption and decay.

Let the public be no longer deceived by the advertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the human system by supposing that a medicine which purges merely, without renovating or preserving can be a perfect remedy. For it is a fixed and immutable law of our being that they should be, in no case, Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that all Purgatives which DO NOT possess a saving and preserving power, are injurious and injurious only—and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is based upon unnatural and absurd laws, and they who follow it fall victims to their own folly, and too late repent their temerity.

Beware of UNRELIEVED PURGATION! Purge and Preserve, or do not attempt to Purge at all.

THE celebrated PURIFYING AND PRESERVING PILLS, purify the body from corruption and preserve it from injury and decay by a single operation. They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice, Indigestion, Dyspepsia, Eruptions of the Skin, Scrophula, Piles, Costiveness, Bilious Disorders, Liver Complaint, Fevers, Nervous Disorders, Inward Weakness, Cholera, Dysentery, Worms, Gout, Rheumatism, Female Complaints, Depression of Spirits, Debility of System, Fits, &c., &c.

Price 25 cents per Box, with full directions, Essay on Health and Long Life, &c.

Sold, wholesale and retail, by the sole proprietor, D. F. BRADLEE, 79 Court Street, corner of Brattle Street, Boston.

SANDS' SARSAPARILLA.
FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM,

NAMELY:
Scrophula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of the mercury, ascites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.

The proprietors submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine:

New York, August 3, 1842.
"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, 'from the crown of my head to the sole of my foot there was no soundness in me.' From the time first mentioned until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swaim's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near \$3,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure.

PAUL BURDOCK.
Prepared and sold by A. B. SANDS & Co. Drug-gists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York.

For sale by Druggists throughout the United States. Price \$1 per bottle, six bottles for \$5.
The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject, and ask for Sands' Sarsaparilla, and take no other.

G. W. LADD, Agent for this vicinity, and dealers will be supplied very low by the dozen.
June 20—Sawd&wly

REMOVAL.

J. W. LAWREY, has removed his Oyster and Refreshment Establishment to the New Store adjoining W. T. Pearson's, opposite Mercantile Square.

Grateful for past favors, he would inform his old customers and the public in general, that he has made extensive arrangements in New York and Boston, for a constant supply of first rate, fresh Oysters; which he would be happy to furnish Wholesale and Retail, at prices to suit the times. His Table will be constantly supplied (as usual) with a good variety of Refreshments.
Bangor, Oct. 6, 1843.

SMITH & FENNO.

Dr. D. Jayne's FAMILY MEDICINES.
JAYNE'S EXPECTORANT.
THIS invaluable medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have used it for Asthma, Coughs, Spitting of Blood, Whooping Cough, Croup or Hives, Consumption, Chronic Phlegm, Hoarseness, Pain and Soreness of the Throat, Difficulty of Breathing, and every other disease of the LUNGS and BREAST, can and do attest to its usefulness. BRONCHITIS, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of CONSUMPTION, is always cured by it. The usual symptoms of this disease, Bronchitis, are Cough, Soreness of the Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a Spitting up of Phlegm or Mucus, and sometimes Blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run through every part of the Lungs. The Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy expectoration, and a cure is soon effected.
It always cures ASTHMA. Two or three large doses will cure the CROUP, or HIVES of children, in 15 minutes to an hour. It immediately subdues the violence of WHOOPING COUGH, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with CONSUMPTION, have been restored to perfect health by it.
If this Expectorant be given in the commencement of PLEURISY, INFLAMMATION OF THE LUNGS, or in acute RHEUMATISM, in doses sufficiently large, so as to cause a little nausea for some time, going to bed and covering up warm, it will produce perspiration, and subdue these affections at once.
PRICE \$1.00.

Tonic Vermifuge.
WORMS IN CHILDREN. Of all diseases to which children are exposed, none are so fatal to them as WORMS. Unfortunately, children are seldom free from them, and as they imitate the symptoms of almost every other complaint, they often produce alarming effects without being suspected. They are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls, and obstructing the bowels, and frequently the throat, causing convulsions, and too often death. The desired remedy will be found in Dr. JAYNE'S TONIC VERMIFUGE, which will in very short time, and in a pleasant manner, expel the worms, and invigorate the powers of digestion so as to prevent a return of them. PRICE 50 cents.

JAYNE'S CARMINATIVE BALSAM.
This is one of the most efficient, pleasant and safe compositions ever offered to the public, for the cure of the various derangements of the Stomach and Bowels, and the only article worthy of the least confidence for curing CHOLERA INFANTUM or SUMMER COMPLAINT; and in the above and following diseases, it really acts like a charm, viz:
Dysentery, Diarrhoea or Looseness, Cholera Morbus, Summer Complaint, Cholera, Griping Pain, Sour Stomach, Sick and Nervous Headache, Heartburn, Water-brash, Pain or Sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged; Want of Appetite, Restlessness and inability to Sleep, Wind in the Stomach and Bowels, Hysterics, Cramp, Nervous Tremors and Twitchings, Sick Headache, Indigestion, Melancholy and Lowness of Spirits, Fretting and Crying of Infants, and for all Bowel Affections and Nervous Diseases.
PRICE 50 cents.

Hair Tonic.
NO EXCUSE FOR A BALD HEAD. Since the important discovery of Dr. JAYNE'S HAIR TONIC, every one may, if they choose, preserve their hair from falling off, or if already bald, grow, with certainty, have their hair restored again by a faithful and persevering application of this valuable HAIR TONIC.
Please to read without prejudice the following communication, which, in addition to hundreds of others equally respectable, should remove the doubts of every reasonable person of the uniform and singular efficacy of JAYNE'S HAIR TONIC.

HAMILTON, Feb. 15, 1840.
Dr. D. Jayne—Dear Sir: I cannot say my hair is restored, but I can say that it appears to be in as rapid a process of restoration as could reasonably be expected. I had not finished the first bottle, before a decided change was manifest over the bald part of my head, which it was applied. A new growth of fine glossy hair, much like that of an infant, appeared, and has continued to increase, and I have had it cut out three times. I have recently commenced upon the third bottle, and have been a good deal irregular in the use of the Tonic from the first, and from the cause I apprehend the effect is at present less than it otherwise would have been.

I began the use of the Tonic with little or no faith that it would ever be successful on my head, though I felt entire confidence in your statements of what it had done for others; and I was as much surprised as delighted when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly, if not quite, an inch long at the time I have had it cut, on those parts which were nearly destitute of any when you saw me. It was however, very fine, though quite thick. I am flushed with ever, and hope of final success, in the diligent use of your Tonic, which, amidst all the hair bandages which have been directed in the papers, I am constrained to believe is what it claims to be, and that it will make the hair grow, and no mistake, at least on some heads.
GEO. W. EATON.
Prof in Hamilton Lit. and Theological Seminary, Madison County, New York.

PRICE \$1.00.

Jayne's Sanative Pills.

These Pills are an excellent, mild and safe purge at all times, and are exceedingly useful in Dyspepsia and obstructions of the Liver. Persons taking them can eat and drink as usual, without fear of injury; and, what is of infinite advantage, making the use of mercurial preparations, so frequently used in derangements of the stomach and liver, unnecessary.

These Pills may be taken at all times, and are beneficial in nearly all diseases. They have long been a favorite prescription of the proprietor for all obstructions of the Liver, Spleen, Kidneys, Uterus, and all other organs of the body—Inflammatory, Intermittent, Remittent, Bilious, and every other form of Fever—Jaundice and Liver Complaint. For Dyspepsia they are really an invaluable article, gradually changing the vitiated secretions of the stomach, and producing healthy action of that important organ. They are very valuable in diseases of the Skin, and for what is commonly called "impurity of the blood"; also for Female Complaints, Costiveness, &c. &c.—and in fact, every disease where an Aperient, Alternative or Purgative medicine is required. For all kinds of the numerous and distressing cases of DYSPEPSIA POSITIVELY CAN BE CURED by a persevering use of this valuable SANATIVE.

They are expressly prepared to be used as an Aperient, when purging is necessary, while using his Expectorant, and for the removal of obstructions in the Liver, which are often attendant on some of the diseases of the Breast.

Prepared only by Dr. D. Jayne, Philadelphia. And for sale, Wholesale and Retail, by SMITH & FENNO, Bookellers, 14 West Market Square, Bangor, Aug. 23 sawd&wly

LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND.
PEARSON'S MILLS, BANGOR.
THE public are informed that we have established a manufactory for making LOOKING GLASS, PORTRAIT and PICTURE FRAMES of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and ill looking ones, and at a low price.

Large and elegant O G and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE.

New frames fitted to Portraits Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

Dealers supplied with frames either with or without glasses.

Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MINNAN on East Market Place Bangor, July 26, 1843—d&wly

THE ECONOMY OF FARMING, by Burgess—E. F. BUREN
For sale by

WRIGHT'S Indian Vegetable Pills.
The True Character of Counterfeiters and Sellers of Counterfeit Medicines
NO Medicine has been introduced to the American Public, whose virtues have been more cheerfully and universally acknowledged by its vast popularity, and extensive circulation, than **WRIGHT'S INDIAN VEGETABLE PILLS.**
To descend upon their various virtues at this late season would be a work of supererogation, since few who peruse this article will be found unacquainted with the widely circulated proofs of the excellence of the Medicine, to which many will be ready to add the testimonials of their own experience. But if further proof were needed of the value of the remedy it might be found in the fact that no Medicine in the market has been so shamelessly and repeatedly counterfeited, ignorant, envious, avaricious, and unprincipled men, have in different places, manufactured a spurious pill, bearing a superficial resemblance to the true ingredients, which they have sought to foist upon the public as the veritable **Indian Vegetable Pills.**
These fraudulent Swindlers could never pass their vile wares upon the public but for the countenance and assistance of self-styled respectable Druggists, who, for the sake of a little "filthy lucre," lend themselves to the monstrous and unhallowed system of imposition. The counterfeiter of a popular medicine is more criminal than a counterfeit of current money. The injuries done by the latter sink to nothing in comparison with those inflicted upon society by the former. We might paint him wringing the mite from the hard labor of invalid penury which is extended for the sake of health, and receives instead the vile drug that protracts and aggravates disease, or to view it in the most painful aspect, suffers it to rage unchecked. How melancholy is the reflection that thousands have been hurried to the grave by having a counterfeit substituted for the true Medicine; who, for the venal traitor might now be living in high health, the delight and hope of the social circle. All classes are interested in putting down these vile Counterfeiters.

Let the Stores where they are sold be marked and Shunned.
Let the virtuous indignation of the community administer to all concerned in these unfair practices a general and withering rebuke.

CAUTION:

The public will please observe that the genuine Medicine has the following wording on the sides of the boxes.

"WRIGHT'S INDIAN VEGETABLE PILLS."
—Indian Purgative—
OF THE NORTH AMERICAN COLLEGE OF HEALTH.

And also, around the border of a label will be found in small type, "Entered according to Act of Congress in the year 1840, by William Wright in the Clerk's Office of the District Court of the Eastern District of Pennsylvania."

It will be further observed that the printed direction for using the Medicine, which accompanies each box, are also entered according to Act of Congress; and the same form will be found at the bottom of the first page.

The slightest attention to the above few particulars will serve to protect the purchaser from fraud and save the lives of those who may otherwise be endangered by using a Counterfeit Medicine.

The public will also remember, that all who sell the genuine Indian Vegetable Pills provided with a certificate of Agency, signed by **WILLIAM WRIGHT, Vice President of the North American College of Health**

and that Pedlars are never in any case allowed to sell the genuine article. All traveling Agents will be provided with a certificate of Agency as above described; and those who cannot show one will be known as base impostors.

The regularly appointed Agents can receive their supplies of the above popular pills, as heretofore, from the only Office and General Depot, the New England States

198 Tremont Street 198 BOSTON.

The following highly respectable persons have been appointed Agents for the sale of the above valuable Medicine.

AGENTS.
Bangor—DAVID BUGBEE, Bookseller.

COMSTOCK'S SARSAPARILLA.

[For Comstock & Co.'s Concentrated Compound Fluid Extract of Sarsaparilla, for the cure of Scrophula, Chronic Rheumatism, General Debility, Cutaneous Diseases, Scaly Eruptions of the Skin, Pimples or Pustules on the Face, and all diseases arising from an impure state of the blood, exposures and imprudences, see the excessive use of Mercury, &c.]
This article is a warranted pure and strong as any in large bottles, as any sold at the same price, at the low price of fifty cents per bottle, and can be found only at LADD'S, and A. P. GUILD'S.

TO THE OLD AND YOUNG.

HOYE RED HEADS AND GRAY HAIR.
Colors the Hair, and will not hurt the Scalp.

THIS Dye is in form of a powder which is applied to the hair by the brush, and is not rubbed in, the first night turning the hair to a light brown, the second or third night to a bright jet black. The person may, therefore, with the least possible trouble, keep his hair any dark shade or color, and with a positive assurance that the powder, when applied to the skin, will not color it. It is applied to the hair, and not to the skin, and is known to have a grey hair turned to a jet black with the article. There is no coloring in the hair, as one can easily test, as one can easily test.

These facts are warranted by the gentleman who manufactures it, who is the celebrated chemist, DR. COMSTOCK, author of Comstock's Chemical, Philosophical, and other works, and is published by G. W. LADD, A. P. GUILD, and others.

For sale by G. W. LADD, A. P. GUILD, and others.
